50X1-HUM

1. The Sovromconstructie in Rumania is currently building six factories for the production of industrial carbon, which is used in explosives and in brushes for electric motors. Some of the factories have been completed and have already started to produce.
2. These factories are located at Prostea Mare near Medias and are approximately eight kilometers from Copsa Mica in Transylvania. Natural gas (gaz metan) is available at Copsa Mica for the production process.
